Please explain how these funds will be used to provide a public benefit:

These funds would allow the City to construct a new Community and Recreation Center for the citizens and visitors to the City of Walhalla. Currently, the City utilizes the old Walhalla High School gym, constructed in 1916. The building has not kept up with codes and is not accessible, making it difficult to serve all citizens/visitors of our community. While there has been tremendous growth in the City's recreational offerings, including the new additions of volleyball and flag football, there is also a need for a center to serve those in our community beyond athletic opportunities. A community center would offer a space for gentle exercise, social groups, educational workshops, meeting space and more. As a public venue, this center would be a place community members can go for socializing, recreational, educational, informational or support services. The new space will allow for City sponsored programs and/or partnerships to offer programs for all age-groups, from youth to seniors. We expect public benefits including: improved communication, social networks, overall well-being; reduced isolation and better community and civic engagement.
