Plan/Accounting of how these funds will be spent:

Description	Budget	Explanation
Improve Lighting at Roosevelt Park	\$695,000.00	Project to include replacing existing lights on two fields that are 30+ years old and adding lighting in other areas of the park.
Grand Total	\$695,000.00	

Please explain how these funds will be used to provide a public benefit:

Funds provided will replace two existing field light systems that have failed intermittently causing cancellation and suspension of scheduled play and endangering participants. Lights and parts needed for repairs are becoming obsolete as the current two light systems were obtained as "used" and are currently 30+ years old. New lighting will be added to the park in areas that don't currently have lighting, including a new system to a baseball field. The new lights will expand the use of the field and other park facilities longer into the evening in a safe manner. The new and improved lighting systems will give Clover Parks and Recreation the opportunity to meet the growing demand for organized youth and adult sports. The new LED lighting systems will also save electricity and light replacement costs. At the completion of the project, the public will benefit from more reliable and brighter/safer lighting, expansion of time facilities can be safely utilized, and savings in operational costs.
