Please explain how these funds will be used to provide a public benefit:

Town Hall is a building that was originally built in 1910 and the current layout of the council chambers is not conducive for public involvement. The new layout will allow more people to attend council meetings and also be able to know what is being discussed and voted on better than in the past. The reconfiguration of the council dais will also be used for municipal court and will better protect town employees and elected officials during meetings. The Audio/Visual Equipment will be used to show presentations and live stream meetings on the internet. The reconfiguration will also protect Town employees from harm and limit access to those wishing to cause harm. The new upgrades will enable additional meetings and presentations to take place which will keep citizens better informed of the actions and activities of thier Town Hall.
