### Please explain how these funds will be used to provide a public benefit:

On September 28, 2021, City Council unanimously approved a Proclamation to reaffirm its commitment to work toward full ADA compliance within the City and not only meet minimum requirements set by law but go above and beyond to ensure that people with disabilities feel welcomed in our community. The City wishes to continue enhancing public beach access paths to improve the beach experience for residents and visitors. Some beach access paths are in low lying areas that are prone to flooding and standing water which could take days to clear. This impacts public beach access as users need to walk-through knee-deep water to go from the public parking areas to the beach. Installing boardwalks along additional beach access paths would not only improve the beach going experience for the public, but also facilitate access for folks with disabilities.
