# McKinley, Cooper & Co., LLC CERTIFIED PUBLIC ACCOUNTANTS

#### INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members of Town Council Town of Honea Path Honea Path, South Carolina

# **Opinions**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Honea Path, as of and for the year ended May 31, 2022, and the related notes to the financial statements, which collectively comprise the Town of Honea Path's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Honea Path, as of May 31, 2022, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Town of Honea Path, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

# Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Town of Honea Path's ability to

Members
American Institute of Certified Public Accountants
S.C. Association of Certified Public Accountants

The Honorable Mayor and Members of Town Council Town of Honea Path April 4, 2023

continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to
  fraud or error, and design and perform audit procedures responsive to those risks. Such procedures
  include examining, on a test basis, evidence regarding the amounts and disclosures in the financial
  statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures
  that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
  effectiveness of the Town of Honea Path's internal control. Accordingly, no such opinion is
  expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that
  raise substantial doubt about the Town of Honea Path's ability to continue as a going concern for a
  reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic

The Honorable Mayor and Members of Town Council Town of Honea Path April 4, 2023

financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# **Supplementary Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Town of Honea Path's basic financial statements. The supplemental schedules, as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

# Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated April 4,2023, on our consideration of the Town of Honea Path's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Town of Honea Path's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Town of Honea Path's internal control over financial reporting and compliance.

McKinley, Coopes & Co., UC

Greenville, South Carolina April 4, 2023

#### Management's Discussion and Analysis

As management of the Town of Honea Path (the "Town"), we offer readers of the Town's financial statements this narrative overview and analysis of the financial activities of the Town for the fiscal year ended May 31, 2022.

# Financial Highlights

- The assets of the Town exceeded its liabilities at the close of the most recent fiscal year by \$3,612,523 (net position). Of this amount, \$(1,558,737) (unrestricted net position) is the deficit amount which the Town needs to meet the government's ongoing obligations to citizens and creditors.
- The government's total net position increased by \$254,434.
- As of the close of the current fiscal year, the Town's governmental fund reported an ending fund balance of \$1,314,539, an increase of \$574,966 from the prior year.
- As of the close of the current fiscal year, the Town's proprietary fund reported an ending net position balance of \$3,148,213, a decrease of \$262,891 from the prior year.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$1,207,568, or 27 percent of total general fund expenditures.

#### Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the Town's basic financial statements. The Town's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the Town's finances, in a manner similar to a private-sector business.

The statement of net position presents information on all of the Town's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Town is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes).

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Town, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the Town can be divided into two categories: the governmental fund and the proprietary fund.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements focus on inflows and outflows of spendable

resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The Town maintains one governmental fund. The General Fund is the general operating fund of the Town and is considered to be a major fund. The Town adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

**Proprietary fund.** The Town maintains one proprietary fund. The *enterprise fund* is used to report the same functions presented as *business-type activities* in the government-wide financial statements. The Town uses the enterprise fund to account for its water and sewer services provided to the Town's residents.

**Notes to the financial statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

# Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Town, assets exceeded liabilities by \$3,612,523 at the close of the most recent fiscal year.

By far the largest portion of the Town's net position (140 percent) reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment). The Town uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the Town's investment in its capital assets is reported net of related debt, the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

The balance of *unrestricted net position* (\$1,558,737) represents the amount needed to meet the government's ongoing obligations to citizens and creditors. The category of restricted net position represents resources that are subject to restrictions that are externally imposed.

The following table presents a summary of the Town's net position as of May 31, 2022, with comparative data for May 31, 2021.

Town of Honea Path's Net Position

Transfers	\$	85,111	\$	50,000	\$	(85,111)	\$	(50,000)				
Increase (decrease) in net position	\$	517,325	\$	(359,156)	\$	(262,891)	\$	546,597	\$	254,434	\$	187,441
Net position, June 1	\$	(53,015)	\$	306,141	\$	3,411,104	\$	2,864,507	\$	3,358,089	\$	3,170,648
Net position, May 31	\$	464,310	\$	(53,015)	\$	3,148,213	\$	3,411,104	\$	3,612,523	\$	3,358,089

The government's net position increased by \$254,434 during the current fiscal year. Governmental activities increased the Town's net position by \$517,325. This is due to operating revenues in excess of expenses. Business-type activities decreased the Town's net position \$262,891. This is due to operating expenses in excess of revenues.

# Financial Analysis of the Government's Funds

As noted earlier, the Town uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the Town's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Town's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

The general fund is the chief operating fund of the Town. At the end of the current fiscal year, the fund balance total is \$1,315,539, of which \$1,207,568 is unassigned.

The fund balance of the Town's general fund increased by \$1,574,966 during the current fiscal year.

- Total revenues increased from the prior year.
- Capital outlay expenditures decreased significantly from the prior year.

# General Fund Budgetary Highlights

There was not a reported difference between the original budget and the final budget. The Town adopted a budget with budgeted expenditures exceeding budgeted revenues by \$30,247.

# Capital Asset Administration

Capital assets. The Town's investment in capital assets for its governmental activities as of May 31, 2022 amounts to \$1,868,193 (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings, machinery, and equipment. The total decrease of \$229,306 in net capital assets is the net of asset disposals of \$258,021, depreciation expense of \$287,171, and payments on related debt of \$315,886.

The Town's investment in capital assets for its business-type activities as of May 31, 2022, amounts to \$3,196,573 (net of accumulated depreciation and related debt). The net increase in capital assets of \$252,190 is the net of asset additions of \$373,164, depreciation expense of \$169,415, and payments on related debt of \$48,441.

The major capital asset additions in the business-type activities during the year were equipment purchases by the water and sewer departments.

**Long-term debt.** The long-term debt of the Town consists of notes payable on machinery and equipment, revenue bonds payable backed by water and sewer revenue, and a revenue bond backed by the hospitality fees.

#### **Economic Factors and Next Year's Budgets and Rates**

Inflationary trends in the region compare favorably to national indices.

This was considered in preparing the Town's budget for the 2023 fiscal year.

# **Requests for Information**

This financial report is designed to provide a general overview of the Town's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Town of Honea Path, 204 South Main Street, Honea Path, South Carolina 29654.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUND TO THE STATEMENT OF ACTIVITIES YEAR ENDED MAY 31, 2022

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balance - total governmental fund	\$ 574,966
Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period.	(545,192)
Changes in proportionate shares of the net pension liability, deferred outflows of resources, and deferred inflows of resources related to its participation in the State retirement plans are not reported in the governmental funds but are reported in the statement of activities.	171,665
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. This amount is the net effect of these differences in the treatment of long-term debt and related items.	 315,886
Change in net position of governmental activities	\$ 517,325

# NOTES TO FINANCIAL STATEMENTS MAY 31, 2022

#### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

# **Reporting Entity**

The Town of Honea Path was incorporated in 1912. The Town operates under a Mayor – Council form of government and provides the following services as authorized by its charter: public safety (police and fire), highways and streets, sanitation, culture – recreation, public improvements, planning and zoning, and general administrative services. The Town also owns and operates a utility system which provides water and sewer services. The financial statements of the Town include all of the above operations. No other organizations are included in the financial statements.

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. The criteria used to determine whether or not an organization is included in the financial statements are financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, accountability for fiscal matters, scope of public service, and financing relationships. Based upon the application of these criteria, there are no component units that should be included along with the Town of Honea Path as part of the reporting entity.

The accounting policies of the Town of Honea Path conform to accounting principles generally accepted in the United States of America as applicable to governments.

The following is a summary of the more significant policies:

#### **Basis of Presentation**

#### Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government. Governmental activities, which are normally supported by taxes and intergovernmental revenues or from specific revenue sources such as grants, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program revenues are reported instead as *general revenues*. Separate financial statements are provided for the governmental fund and proprietary fund.

# Measurement Focus, Basis of Accounting, and Financial Statement Presentation

#### Government-wide Financial Statements

The government-wide financial statements are reported using the *economic resources measurement focus* and the accrual *basis of accounting,* as are the proprietary and fiduciary fund financial statements.

Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

#### Governmental Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The government reports the following major governmental fund:

The general fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The government reports the following major proprietary fund:

The *enterprise fund* accounts for the activities of the utility services.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Amounts reported as *program revenues* include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund

are charges to customers for sales and services. Operating expenses for the enterprise fund include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

# Assets, Liabilities, and Net Assets or Equity

#### Cash and Cash Equivalents

The Town's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition. Investments are stated at cost, which approximates market value.

#### Receivables and Payables

Outstanding balances between funds are reported as "due to/from other funds." Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

#### Property Taxes

Property taxes, other than vehicle taxes, are normally levied in October and are payable between November 1 and December 31. Vehicle taxes are assessed and collected on a monthly, cyclical basis. The Town has by contract authorized the county to assess and collect all vehicle property taxes. These collections are remitted from the County Treasurer to the Town on a monthly basis.

#### Inventory

Materials and supplies are recorded at invoice cost and stated at lower of such cost or market value.

#### Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$500 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Property, plant, and equipment of the primary government is depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Building improvements	15
Vehicles	3-5
Machinery and equipment	5-10
Streets and sidewalks	7

# Compensated Absences

It is not the policy of the Town to allow employees to accumulate vacation time from one calendar year to the next. Upon leaving employment for any reason, employees are not reimbursed for unused sick leave. No liability for vacation or sick pay is recorded.

# Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

# Fund Balance Classifications

Fund balance is classified in five categories: Nonspendable, Restricted, Committed, Assigned, and Unassigned. Nonspendable fund balances include amounts that are not in spendable form or are legally required to remain intact. Restricted fund balances include amounts that have external restrictions by either grantors, debt covenants, laws, or other governments. Committed fund balances include amounts that are committed to a specific purpose by council ordinance. Assigned fund balances include amounts that are constrained by limitations resulting from intended uses as established by Town Council or by the Town Mayor. Unassigned fund balance includes amounts that have not been assigned to any purpose.

Unless specifically designated otherwise, fund expenditures and encumbrances are from restricted fund balance to the extent of restricted fund balance revenue, followed by committed fund balance, assigned fund balance, and unassigned fund balance, respectively.

Below are the fund balance classifications for the governmental funds at May 31, 2022:

	General Fund			
Fund Balances		-		
Restricted-victim's assistance	\$	23,163		
Restricted-hospitality tax		83,331		
Committed		477		
Unassigned		1,471,795		
Total Fund Balances	\$	1,578,766		

#### Net Position

Classifications of net position in government-wide statements are net investment in capital assets, restricted, and unrestricted. Restricted net position represents constraints on resources that are either externally imposed by creditors, grantors, contributors, laws or regulations of other governments or imposed by law through state statute. Restricted net position consists of third-party gifts and donations that are reserved for branch expenditures.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed,

#### Transactions Between Funds

Transactions that would be treated as revenues, expenditures, or expenses if they involved organizations external to the governmental unit are accounted for as revenues, expenditures, or expenses in the funds

involved. Transactions which constitute reimbursements of a fund for expenditures or expenses initially made from that fund which are properly applicable to another fund are recorded as expenditures or expenses in the reimbursing fund and as reductions of the expenditure or expense in the fund that is reimbursed.

These transactions are treated as transfers and are included in the results of operations of the governmental funds.

#### Statement of Cash Flows

For purposes of the statement of cash flows, the Town considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

# Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. Those estimates and assumptions affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements. In addition, they affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates and assumptions.

# Lease Recognition

The Town recognizes leases in accordance with the Accounting Standards Update (ASU) 2016-02, Leases. This standard requires balance sheet (statement of net position) recognition of lease agreements with terms exceeding 12 months and disclosure of significant terms of the lease. The Town has evaluated lease contracts and determined that current leases do not result in a material impact on the financial statements.

# NOTE 2 - STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

#### **Budgetary Information**

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for all governmental funds. All annual appropriations lapse at fiscal year end.

The appropriated budget is prepared by fund, function, and department. The Town's department heads may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the council. The legal level of budgetary control (i.e., the level at which expenditures may not legally exceed appropriations) is the department level.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g., purchase orders, contracts) outstanding at year end are reported as reservations of fund balances and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year.

#### NOTE 3 – DETAILED NOTES ON ALL FUNDS

#### **Deposits and Investments**

The State of South Carolina General Statutes permit the Town to invest in obligations of the U.S. Treasury,

commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool.

Cash is maintained in demand deposits or savings accounts and certificates of deposits. There were no deposit or investment transactions during the year that were in violation of either the state statutes or the policy of the Town.

As of May 31, 2022, the Town had deposits as follows:

Deposits with financial institutions

\$ 1,751,812

Interest rate risk. The Town manages its exposure to declines in fair values by limiting its investments to deposits with short-term maturity dates at financial institutions.

Credit risk. As of May 31, 2022, the Town's investments are limited to deposits with financial institutions.

Concentration of credit risk. The Town's investment policy currently does not involve investment in any individual issuers.

Custodial credit risk – deposits. In the case of deposits, this is the risk that in the event of a bank failure, the Town's deposits may not be returned to it. The Town's policy is that all deposits in excess of federal insurance amounts be collateralized with securities held by the pledging financial institution's trust department or agent in the Town's name. As of May 31, 2022, all deposits are either insured or fully collateralized.

#### Receivables

Receivables as of yearend for the Town, including the applicable allowances for uncollectible accounts, are as follows:

	Proprietary						
		General	E	nterprise	Total		
Taxes	\$	14,665	\$	· ·	\$	14,665

In proprietary funds, the following estimated useful lives are used to compute depreciation:

Sewer service	35 - 40 years
Water service	15 - 60 years
Service vehicles	3 - 10 years
Equipment	5 - 10 years

# Interfund Receivables, Payables, and Transfers

The composition of interfund balances as of May 31, 2022 is as follows:

Due to	/from	other	funds:

Receivable Fund	Payable Fund	 Amount
Genéral	Proprietary-Enterprise	\$ 119,118

The outstanding balances between funds result mainly from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

# Long-term Debt

The following is a summary of the change in long-term debt owed by the Town during the year ended May 31, 2022:

	eginning Balance	Addit	ions	R	eductions		Ending Balance		ue Within One Year
Governmental activities	 		······································	_		***********			
Notes payable	\$ 501,249	\$	-	\$	(294,432)	\$	206,817	\$	81,566
Revenue bond, series 2012	132,110		-		(21,454)		110,656		21,454

Long-term liabilities	\$ 290,963	\$		\$	(48,441)	\$	242,522	.\$	40,827

#### Notes Payable

The Town has entered into multiple financing agreements with financial institutions for financing of equipment for the police, fire, streets and sanitation, and water and sewer departments. The following is a schedule of future minimum payments and the present value of the net minimum payments:

Year Ending May 31,	Governmental Activities			
2023	\$	30,546		
2024		33,323		
2025		33,323		
2026		33,323		
2027		32,298		
Thereafter		66,207		
Total Minimum Lease Payments		229,020		
Less Amount Representing Interest		(22,203)		
Present Value of Future Minimum Lease Payments	\$	206,817		

#### Revenue Bond

The Town has issued a revenue bond to provide for the acquisition and construction of major water and sewer facilities. The Combined Waterworks and Sewer System Revenue Bond, Series 2002, dated April 9, 2002, is held by a bank. Monthly payments of \$7,146, including interest, were due monthly through May 1, 2011. On May 1, 2011, the bank extended the due date of the bond to January 1, 2013. The monthly payment and interest rate remained the same. On January 11, 2018, the bank extended the due date of the bond to January 10, 2023. Monthly payments in the amount of \$3,851 at an interest rate of 3.90% are due through January 2023. On November 24, 2020, the bank extended the due date of the bond to November 24, 2025. Monthly payments in the amount of \$3,775 at an interest rate of 2.0% are due through November 2025. Bonds currently outstanding are as follows:

Purpose	Interest Rate	Amount
Business-type activities	2.00%	\$ 242,522

Annual debt service requirements to maturity for revenue bonds are as follows:

Year Ending	Business-type Activities		
May 31,	Principal Interes		Interest
2023	\$ 40,827	\$	4,478
2024	41,651		3,653
2025	42,492		2,813
2026	117,552		1,086
Total	\$ 242,522	\$	12,030

#### Revenue Bond

The Town has issued a revenue bond to provide for the construction of a parking lot for the Watkins Building. The Hospitality Fee Revenue Bond, Series 2012, dated January 12, 2012, is held by a bank. Monthly payments of \$2,145, including interest, are due monthly through January 12, 2027. Bonds currently outstanding are as follows:

Purpose	Interest Rate	<u> </u>	Amount
Governmental activities	3.50%	\$	110,656

Annual debt service requirements to maturity for revenue bonds are as follows:

	Governmental Activities				
Year Ending May 31,	F	Principal		Interest	
2023	\$	22,217	\$	3,519	
2024		23,007		2,729	
2025		23,825		1,910	
2026		24,673		1,063	
2027		16,934		224	
Total	\$	110,656	\$	9,445	

#### **Building Lease**

The Town entered into a lease to manage and develop the Watkins Community Center. The Center's purpose is to enhance the quality of life in the Honea Path community. The Center will operate in the Watkins School Building and failure to develop or manage the Watkins Community Center in a manner consistent with its purpose shall constitute default on the lease. Under the terms of the lease, the Center shall pay the Town one dollar per year. The lease will continue indefinitely until the Town or Center decides to terminate the agreement.

The Town entered into a lease to provide space in Town Hall to Anderson Free Clinic, Inc. for the purpose of which to provide free or low-cost medical care to the Honea Path community. Under the terms of the lease, the Clinic shall pay the Town one dollar per year. The lease will continue for ten years until the Town or Clinic decides to terminate the agreement or the Clinic fails to maintain and operate a minimum of one day per month.

#### NOTE 4 – OTHER INFORMATION

#### **Employee Retirement Systems**

The South Carolina Public Employee Benefit Authority (PEBA), created July 1, 2012, is the state agency responsible for the administration and management of the various Retirement Systems and retirement programs of the state of South Carolina, including the State Optional Retirement Program and the S.C. Deferred Compensation Program, as well as the state's employee insurance programs. As such, PEBA is responsible for administering the South Carolina Retirement Systems' five defined benefit pension plans. PEBA has an 11-member Board of Directors, appointed by the Governor and General Assembly leadership, which serves as custodian, co-trustee and co-fiduciary of the Systems and the assets of the retirement trust funds. The Retirement System Investment Commission (Commission as the governing body, RSIC as the agency), created by the General Assembly in 2005, has exclusive authority to invest and manage the retirement trust funds' assets. The Commission, an eight-member board, serves as co-trustee and co-fiduciary for the assets of the retirement trust funds. By law, the State Fiscal Accountability Authority (SFAA), consists of five elected officials, also reviews certain PEBA Board decisions regarding the actuary of the Systems.

For purposes of measuring the net pension liability, deferred outflows and inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Systems and additions to/deductions from the Systems fiduciary net position have been determined on the accrual basis of accounting as they are reported by the Systems in accordance with generally accepted accounting principles (GAAP). For

this purpose, revenues are recognized when earned and expenses are recognized when incurred. Benefit and refund expenses are recognized when due and payable in accordance with the terms of the plan. Investments are reported at fair value.

PEBA issues a Comprehensive Annual Financial Report (CAFR) containing financial statements and required supplementary information for the Systems' Pension Trust Funds. The CAFR is publicly available through the Retirement Benefits' link on PEBA's website at www.peba.sc.gov, or a copy may be obtained by submitting a request to PEBA, 202 Arbor Lake Drive, Columbia, SC 29223. PEBA is considered a division of the primary government of the state of South Carolina and therefore, retirement trust fund financial information is also included in the comprehensive annual financial report of the state.

# Plan Descriptions

- The South Carolina Retirement System (SCRS), a cost-sharing multiple-employer defined benefit
  pension plan, was established July 1, 1945, pursuant to the provisions of Section 9-1-20 of the South
  Carolina Code of Laws for the purpose of providing retirement and other benefits for teachers and
  employees of the state and its political subdivisions. SCRS covers employees of state agencies, public
  school districts, higher education institutions, other participating local subdivisions of government
  and individuals newly elected to the South Carolina General Assembly at or after the 2012 general
  election.
- The State Optional Retirement Program (ORP) is a defined contribution plan that is offered as an alternative to certain newly hired employees of state agencies, institutions of higher education, public school districts and individuals first elected to the S.C. General Assembly at or after the general election in November 2012. State ORP participants direct the investment of their funds into an account administered by one of four third party service providers. PEBA assumes no liability for state ORP benefits. Rather, the benefits are the liability of the four third party service providers. For this reason, state ORP assets are not part of the retirement systems' trust funds for financial statement purposes.
- The South Carolina Police Officers Retirement System (PORS), a cost-sharing multiple-employer
  defined benefit pension plan, was established July 1, 1962, pursuant to the provisions of Sections 9-1120 of the South Carolina Code of Laws for the purpose of providing retirement and other benefits to
  police officers and firefighters. PORS also covers peace officers, coroners, probate judges and
  magistrates.

In addition to the plans described above, PEBA also administers three single employer defined benefit pension plans, which are not covered in this report. They are the Retirement System for Members of the General Assembly of the State of South Carolina (GARS), the Retirement System for Judges and Solicitors of the State of South Carolina (JSRS), and the South Carolina National Guard Supplemental Retirement Plan (SCNG).

#### Membership

Membership requirements are prescribed in Title 9 of the South Carolina Code of Laws. A brief summary of the requirements under each system is presented below:

 SCRS – Generally, all employees of covered employers are required to participate in and contribute to the system as a condition of employment. This plan covers general employees and teachers and individuals newly elected to the South Carolina General Assembly beginning with the November 2012 general election. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

- State ORP As an alternative to membership in SCRS, certain newly hired state, public school, and higher education employees and individuals first elected to the S.C. General Assembly at or after the November 2012 general election have the option to participate in the State ORP. Contributions to the State ORP are at the same rates as SCRS. A direct remittance is required from the employer to the member's account with the ORP service provider for the employee contribution and a portion of the employer contribution (5 percent). A direct remittance is also required to SCRS for the remaining portion of the employer contribution and an incidental death benefit contribution, if applicable, which is retained by SCRS.
- PORS To be eligible for PORS membership, an employee must by required by the terms of his employment, by election or appointment, to preserve public order, protect life and property, and detect crimes in the state; to prevent and control property destruction by fire; be a coroner in a full-time permanent position; or be a peace officer employed by the Department of Corrections, the Department of Juvenile Justice or the Department of Mental Health. Probate judges and coroners may elect membership in PORS. Magistrates are required to participate in PORS for service as a magistrate. PORS members, other than magistrates and probate judges, must also earn at least \$2,000 per year and devote at least 1,600 hours per year to this work, unless exempted by statute. An employee member of the system with an effective date of membership prior to July 1, 2012, is a Class Two member. An employee member of the system with an effective date of membership on or after July 1, 2012, is a Class Three member.

#### **Benefits**

Benefit terms are prescribed in Title 9 of the South Carolina Code of Laws. PEBA does not have the authority to establish or amend benefit terms without a legislative change in the code of laws. Key elements of the benefit calculation include the benefit multiplier, years of service, and average final compensation/current annual salary. A brief summary of the benefit terms for the system is presented below:

• SCRS – A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 65 or with 28 years credited service regardless of age. A member may elect early retirement with reduced pension benefits payable at age 55 with 25 years of service credit. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension upon satisfying the Rule of 90 requirement that the total of the member's age and the member's credible service equals at least 90 years. Both Class Two and Class Three members are eligible to receive a reduced deferred annuity at age 60 if they satisfy the five- or eight-year earned service requirement, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program.

The annual retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase. Members who retire under the early

retirement provisions at age 55 with 25 years of service are not eligible for the benefit adjustment until the second July 1 after reaching age 60 or the second July 1 after the date they would have had 28 years of service credit had they not retired.

• PORS - A Class Two member who has separated from service with at least five or more years of earned service is eligible for a monthly pension at age 55 or with 25 years of service regardless of age. A Class Three member who has separated from service with at least eight or more years of earned service is eligible for a monthly pension at age 55 or with 27 years of service regardless of age. Both Class Two and Class Three members are eligible to receive a deferred annuity at age 55 with five or eight years of earned service, respectively. An incidental death benefit is also available to beneficiaries of active and retired members of employers who participate in the death benefit program. Accidental death benefits are also provided upon the death of an active member working for a covered employer whose death was a natural and proximate result of an injury incurred while in the performance of duty.

The retirement allowance of eligible retirees or their surviving annuitants is increased by the lesser of one percent or five hundred dollars every July 1. Only those annuitants in receipt of a benefit on July 1 of the preceding year are eligible to receive the increase.

#### Contributions

Actuarial valuations are performed annually by an external consulting actuary to ensure applicable contribution rates satisfy the funding parameters specified in Title 9 of the South Carolina Code of Laws. Under these provisions, SCRS and PORS contribution requirements must be sufficient to maintain an amortization period for the financing of the unfunded actuarial accrued liability (UAAL) over a period that does not exceed the number of years scheduled in state statute. Legislation in 2017 increased, but also established a ceiling for SCRS and PORS employee contribution rates. Effective July 1, 2017, employee rates were increased to a capped rate of 9.00 percent for SCRS and 9.75 percent for PORS. The legislation also increased employer contribution rates beginning July 1, 2017 for both SCRS and PORS by two percentage points and further scheduled employer contribution rates to increase by a minimum of one percentage point each year in accordance with the state statute. However, the General Assembly postponed the one percent increase in the SCRS and PORS employer contribution rates that was scheduled to go into effect beginning July 1, 2020. If the scheduled contributions are not sufficient to meet the funding periods set in state statute, the Board shall increase the employer contribution rates as necessary to meet the funding period set for the applicable year. The maximum funding period of SCRS and PORS is scheduled to be reduced over a ten-year schedule from 30 years beginning fiscal year 2018 to 20 years by fiscal year 2028.

Additionally, the Board is prohibited from decreasing the SCRS and PORS contribution rates until the funded ratio is a least 85 percent. If the most recent annual actuarial valuation of the Systems for funding purposes shows a ratio of the actuarial value of system assets to the actuarial accrued liability of the system (the funded ratio) that is equal to or greater than 85 percent, then the Board, effective on the following July 1, may decrease the then current contribution rates upon making a finding that the decrease will not result in a funded ratio of less than 85 percent. If contribution rates are decreased pursuant to this provision, and the most recent annual actuarial valuation of the system shows a funded ratio of less than 85 percent, then effective on the following July 1, and annually thereafter as necessary, the Board shall increase the then current contribution rates until a subsequent annual actuarial valuation of the system shows a funded ratio that is equal to or greater than 85 percent.

Required employee contribution rates1 are as follows:

	Fiscal Year 2022 <sup>1</sup>	Fiscal Year 2021
SCRS		
Employee Class Two	9.00%	9.00%
Employee Class Three	9.00%	9.00%
State ORP		
Employee	9.00%	9.00%
PORS		
Employee Class Two	9.75%	9.75%
Employee Class Three	9.75%	9.75%

Required employer contribution rates<sup>1</sup> are as follows:

	Fiscal Year 2022 <sup>1</sup>	Fiscal Year 2021
SCRS		
Employee Class Two	16.41%	15.41%
Employee Class Three	16.41%	15.41%
Employer Incidental Death Benefit	0.15%	0.15%
State ORP		
Employer Contribution <sup>2</sup>	16.41%	15.41%
Employer Incidental Death Benefit	0.15%	0.15%
PORS		
Employee Class Two	18.84%	17.84%
Employee Class Three	18.84%	17.84%
Employer Incidental Death Benefit	0.20%	0.20%
Employer Accidental Death Program	0.20%	0.20%

- Calculated on earnable compensation as defined in Title 9 of the South Carolina Code of Laws.
- <sup>2</sup> Of this employer contribution, 5% of earnable compensation must be remitted by the employer directly to the ORP vendor to be allocated to the member's account with the remainder of the employer contribution remitted to the SCRS.

#### **Actuarial Assumptions and Methods**

Actuarial valuations of the plan involve estimates of the reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and future salary increases. Amounts determined regarding the net pension liability are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. South Carolina state statute requires that an actuarial experience study be completed at least once in each five-year period. An experience report on the Systems was most recently issued for the period ending June 30, 2019.

The June 30, 2021, total pension liability (TPL), net pension liability (NPL), and sensitivity information shown in this report were determined by our consulting actuary, Gabriel, Roeder, Smith and Company (GRS) and are based on an actuarial valuation performed as of July 1, 2020. The total pension liability was

rolled-forward from the valuation date to the plans' fiscal year end, June 30, 2021, using generally accepted actuarial principles. There was no legislation enacted during the 2021 legislative session that had a material change in the benefit provisions for any of the systems. In FY 2021 the Board adopted updated demographic assumptions. Also, the General Assembly permitted the investment return assumption at July 1, 2021 to decrease from 7.25% to 7.00%, as provided by Section 9-16-335 in South Carolina State Code.

The following table provides a summary of the actuarial assumptions and methods used to calculate the TPL as of June 30, 2021:

SCRS	PORS
Entry age normal	Entry age normal
7.00%	7.00%
3.0% to 11.0% (varies by service) 1	3.5% to 10.5% (varies by service) <sup>1</sup>
Lesser of 1% or \$500 annually	Lesser of 1% or \$500 annually
	Entry age normal 7.00% 3.0% to 11.0% (varies by service) 1

The post-retiree mortality assumption is dependent upon the member's job category and gender. The base mortality assumptions, the 2020 Public Retirees of South Carolina mortality table (2020 PRSC), was developed using the Systems' mortality experience. These base rates are adjusted for future improvement in mortality using 80% of Scale UMP projected from the year 2020.

Assumptions used in the determination of the June 30, 2021, TPL are as follows:

Former Job Class	Males	Females	
Educators	2020 PRSC Males multiplied by	2020 PRSC Females multiplied by	
Editeators	95%	94%	
General Employees and Members	2020 PRSC Males multiplied by	2020 PRSC Females multiplied by	
of the General Assembly	97%	107%	
Public Safety and Firefighters	2020 PRSC Males multiplied by	2020 PRSC Females multiplied by	
Tublic Datety and Thengitters	127%	107%	

#### **Net Pension Liability**

The NPL is calculated separately for each system and represents that particular system's TPL determined in accordance with GASB No. 67 less that System's fiduciary net position. NPL totals, as of June 30, 2021, for SCRS and PORS are presented below:

	Total	Plan	Employers'	Plan Fiduciary Net
	Pension	Fiduciary	Net Position	Position as a Percentage of
System	Liability	Net Position	Liability (Asset)	the Total Pension Liability
SCRS	\$ 55,131,579,363	\$ 33,490,305,970	\$ 21,641,273,393	60.7%
PORS	\$ 8,684,586,488	\$ 6,111,672,064	\$ 2,572,914,424	70.4%

The TPL is calculated by the Systems' actuary, and each plan's fiduciary net position is reported in the Systems' financial statements. The NPL is disclosed in accordance with the requirements of GASB 67 in the Systems' notes to the financial statements and required supplementary information. Liability calculations performed by the Systems' actuary for the purpose of satisfying the requirements of GASB Nos. 67 and 68 are

not applicable for other purposes, such as determining the plans' funding requirements.

### Long-term Expected Rate of Return

The long-term expected rate of return on pension plan investments is based upon 20-year capital market assumptions. The long-term expected rate of returns represent assumptions developed using an arithmetic building block approach primarily based on consensus expectations and market based inputs. Expected returns are net of investment fees.

The expected returns, along with the expected inflation rate, form the basis for the revised target asset allocation adopted at the beginning of the 2021 fiscal year. The long-term expected rate of return is produced by weighing the expected future real rates of return by the target allocation percentage and adding expected inflation and is summarized in the table below. For actuarial purposes, the 7 percent assumed annual investment rate of return used in the calculation of the TPL includes a 4.75 percent real rate of return and a 2.25 percent inflation component.

		Expected	Long-term Expected
	Target Asset	Arithmetic Real	Portfolio Real Rate
Allocation/ Exposure	Allocation	Rate of Return	of Return
Public Equity	46.0%	6.87%	3.16
Bonds	26.0%	0.27%	0.07%
Private Equity	9.0%	9.68%	0.87%
Private Debt	7.0%	5.47%	0.39%
Real Assets	12.0%		
Real Estate	9.0%	6.01%	0.54%
Infrastructure	3.0%	5.08%	0.15%
Total Expected Real Return	100.0%		5.18%
Inflation for Actuarial Purposes			2.25%
			7.43%

### **Discount Rate**

The discount rate used to measure the TPL was 7 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers in SCRS and PORS will be made based on the actuarially determined rates based on provisions in the South Carolina Code of Laws. Based on those assumptions, the System's fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the TPL.

### Sensitivity Analysis

The following table presents the Town's proportionate share of net pension liability of the Plan calculated using the discount rate of 7.00 percent, as well as what the employers' NPL would be if it were calculated using a discount rate that is 1.00 percent lower (6.00 percent) or 1.00 percent higher (8.00 percent) than the current rate.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

	1.	00% Decrease	Currer	t Discount Rate	1.00% Increase
System		(6.00%)		(7.00%)	(8.00%)
SCRS	\$	2,400,115	\$	1,832,323	\$ 1,360,370
PORS	\$	1,206,827	\$	831,794	\$ 524,585

### Additional Financial and Actuarial Information

Information contained in these Notes to the Schedules of Employer and Nonemployer Allocations and Schedules of Pension Amounts by Employer (Schedules) was compiled from the Systems' audited financial statements for the fiscal year ended June 30, 2021, and the accounting valuation report as of June 30, 2021. Additional financial information supporting the preparation of the Schedules (including the unmodified audit opinion on the financial statements and required supplementary information) is available in the Systems' CAFR.

### Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At May 31, 2022, the Town reported a liability of \$2,664,117 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2021, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Town's portion of the net pension liability was based on a projection of the Town's long-term share of contributions to the pension plan relative to the projected contributions of all participating members, actuarially determined.

For the year ended May 31, 2022, the Town recognized pension expense of \$21,124 for its participation in the Plan. The expense amount includes actual employer contributions, changes in deferred outflows and/or inflows of resources related to changes in the employer's proportionate share of the collective pension liability, and differences between actual employer contributions and proportionate share of total employer contributions as reported by PEBA for the year ended June 30, 2022.

At May 31, 2022, the Town reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	C	Deferred Dutflows Resources	Deferred Inflows of Resources	
SCRS				
Differences between expected and actual experience	\$	31,212	\$	2,473
Assumption changes		1,00,295		-
Net difference between projected and actual earnings				
on pension plan investments		-		266,169
Changes in proportionate share and differences between				
employer contributions and proportionate share				
of total plan employer contributions		58,442		470,441
Town contributions subsequent to the measurement date		193,759		
Total SCRS		383,708		739,083
PORS				
Differences between expected and actual experience		28,297		2,591
Assumption changes		59,328		-
Net difference between projected and actual earnings				
on pension plan investments		_		186,485
Changes in proportionate share and differences between				,
employer contributions and proportionate share				
of total plan employer contributions		81,443		159,880
Town contributions subsequent to the measurement date		109,049		
Total PORS		278,117		348,956
Total SCRS and PORS	\$	661,825	\$	1,088,039

\$193,759 and \$109,049 that were reported as deferred outflows of resources related to the Town's contributions subsequent to the measurement date to the SCRS and PORS, respectively, will be recognized as a reduction of the net pension liabilities in the year ended May 31, 2023. Other amounts reported as deferred outflows of resources (deferred pension charges) and deferred inflows of resources (deferred pension credits) related to the SCRS and PORS will increase (decrease) pension expense as follows:

### Measurement Period

Ending May 31,	SCRS	PORS	Total
2022	\$ (175,472)	\$ (26,672)	\$ (202,144)
2023	(120,479)	(22,617)	(143,096)
2024	(153,585)	(58,330)	(211,915)
2025	(99,598)	(72,269)	(171,867)
Net Balance of Deferred		<u></u>	
Outflow/(Inflow) of Resources	\$ (549,134)	\$ (179,888)	\$ (729,022)

### Pension Plan Fiduciary Net Position

Detailed information regarding the fiduciary net position of the plans administered by PEBA is available in the separately issued CAFR containing financial statements and required supplementary information for SCRS and PORS. The CAFR of the Pension Trust Funds is publicly available on PEBA's Retirement Benefits' website at www.retirement.sc.gov, or a copy may be obtained by submitting a request to PEBA, PO Box 11960, Columbia, SC 29211-1960.

### NOTE 5 – TAX ABATEMENTS

Other Tax Abatements

The Town's property tax revenues were reduced by approximately \$0 under agreements entered into by Anderson County.

### NOTE 6 – SUBSEQUENT EVENTS

Subsequent events have been evaluated through the date of the auditor's report, which is the date the financial statements were available to be issued.

## NOTES TO REQUIRED SUPPLEMENTARY INFORMATION YEAR ENDED MAY 31, 2022

Method and Assumptions Used in Calculations of Actuarially Determined Contributions: The actuarially determined contribution rates in the schedule of contributions are calculated as of May 31, 2021, one year prior to the end of the fiscal year in which contributions are reported. The actuarial methods and assumptions used to determine the contractually required contributions for the year ended May 31, 2022 reported in that schedule can be found in Note 4 of the basic financial statements.

# INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Members of Town Council Town of Honea Path Honea Path, South Carolina

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Town of Honea Path, as of and for the year ended May 31, 2022, and the related notes to the financial statements, which collectively comprise the Town of Honea Path's basic financial statements, and have issued our report thereon dated April 4, 2023.

### Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Town of Honea Path's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Town of Honea Path's internal control. Accordingly, we do not express an opinion on the effectiveness of the Town of Honea Path's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

American Institute of Certified Public Accountants S.C. Association of Certified Public Accountants

To the Honorable Mayor and Members of Town Council Town of Honea Path April 4, 2023

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

### Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Town of Honea Path's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
