Please explain how these funds will be used to provide a public benefit:

The primary benefit for our citizens will be for "Resiliency". By burying our utilities we will reduce the chance of our citizens losing essential services during natural disaster events. It will also improve safety for the driving community and increase pedestrian safety, in a high pedestrian area. We will be investigating a "road diet" to help calm traffic in this area as well. We will also be making significant aesthetics improvements in this area such as enhanced landscaping, benches, and tables.
