Grand Total	\$750,000.00	

please explain how these funds will be used to provide a public benefit:

York County Council adopted the Worth Mountain Master Plan in December 2022 that will transform a 1,600 acre parcel of land situated along the Broad River, in the western area of the County, into a public recreation area that over time will become a nature-based park. The County received public input and worked with a master plan consultant to create a detailed evaluation of the property as presented in the master plan. This project will establish the following amenities as described in the master plan; a public parking area and approximately 4 miles of shared use trails. Currently, there are no trails on this property for public use and this project will open the park for these user groups. There are limited public recreational opportunities in the western park of York County, therefore, this project will be a major benefit to the residents in this area.
