RE: Final Report for Edisto Natchez-Kusso Tribe

The Robert Davidson Center (RDC) was originally built in 1974. Over time, it became inhabitable, forcing our tribal administration to move our offices into the Edisto Indian Free Clinic building, a building designed to provide medical care. Throughout the different administrations funding was delayed for a new Robert Davidson Center.

After many complications we received funding for the new Robert Davidson Center and hired Mitchell Construction of Walterboro, SC for a turnkey contract. The project started in April of 2024 and was completed in October of 2024.

The Robert Davidson Center (RDC) building will be used as the tribal headquarters building for the Four Holes Indian Organization, Edisto Tribal Inc DBA Edisto Natchez-Kusso Tribe of SC. This building is located at 113 Tee Pee Dr Ridgeville, SC 29472. Originally this building was built in 1974 and now has been demolished and reconstructed.

This building will serve as a multipurpose community building. It will provide offices for our Chief, Vice Chief, and Tribal Secretary. There is also an activity space and an office for the SC Indian Development Council. The activity space will be used to continue our traditions of dance, history, language and crafts.

Thanks,

Brian Coleman
