X Project yet to be started      Estimated start date \_\_\_\_\_      Estimated completion date \_\_\_\_\_

The City issued a Request for Proposals for the engineering design and permitting for maintenance dredging at the Isle of Palms Marina. On June 27, 2023, City Council approved a contract to Applied Technology Management (ATM) in the amount of \$104,500 for this work. Tasks include dredge disposal analysis, preliminary design and sediment testing, permit application development and coordination, bidding package development and support and construction administration. The permit applications are in process, but the city has not recieved them yet. Project completion date will be dependent on when the City is able to secure permits from state and federal regulatory agencies.

The Organization certifies that the funds have been expended in accordance with the plan provided to the agency providing the distribution and for a public purpose.
