Mr. Archibald “Chip” Hardy
Mr. Thomas McElveen
Ambassador Edward McMullen
Mr. Richard Valentine
Mrs. Daphne Wooten

Executive Director

Mr. Toby Edwards

The Carolina Cup Racing Association used the SCPRT contribution to upgrade our sound system, expand our hospitality terrace, improve the jock’s house, upgrade our equipment and improve some of our stables.

The state of the art sound system upgrades allow each guest at the Carolina Cup and the Colonial Cup to hear announcements and race calls making them more aware of what’s going on at the events along with making the guests safe if there is an emergency. These upgrades consisted of new JBL speakers and wiring around the track that allow more specific controls than we had previously.

Our hospitality terrace is the premier place for a large group of people to watch the races. This area continues to sell out for the Carolina Cup so an extension was necessary to provide more room behind the front row for viewing of the races. We now have more room for sponsors and fans to entertain friends, family, employees and clients with a VIP experience.

The upgrades and improvements to our equipment allow our staff to take care of the property more efficiently which will make room for beautification all over the Springdale Race Course.

Lastly, improvement and upgrades to the jock’s house and the stables give us the opportunity to bring more jockeys and horses in for the races and year around. This will also push owners and trainers to make Springdale their racing destination twice a year.
