Project yet to be started      Estimated start date \_\_\_\_\_      Estimated completion date \_\_\_\_\_

Please provide a detailed spending summary, goals that were accomplished, and how the expenses benefit the public. If project is yet to be started, provide an explanation.

A total of \$300,203 was invested in constructing ADA-compliant boardwalks at the 46th Avenue and 52nd Avenue beach access points. This initiative was part of the City's ongoing effort to enhance public beach access and improve the overall beach experience for both residents and visitors. These two access paths were located in low-lying areas that frequently experienced flooding and standing water, sometimes taking days to drain. This created significant obstacles for beachgoers, who often had to wade through knee-deep water to reach the beach from public parking areas.

The installation of these boardwalks not only improved accessibility for all users, including individuals with disabilities, but also significantly enhanced the convenience and safety of reaching the beach. Although the full project budget was not utilized, the City has requested an extension to apply the remaining funds toward the construction of another ADA-compliant boardwalk in the future.

The Organization certifies that the funds have been expended in accordance with the plan provided to the agency providing the distribution and for a public purpose.
