Please provide a detailed spending summary, goals that were accomplished, and how the expenses benefit the public. If project is yet to be started, provide an explanation.

We have made significant progress on the funded enhancements to our new Green Street Sports Complex. Approximately 35% of the earmark contribution has been expended for the construction of the restroom and concessions building. This facility is now operational, although the concessions area is not yet complete. Once finished, it will provide essential amenities to support youth sports and community events. The addition of modern restrooms and concession space directly enhances the comfort and experience of both participants and spectators, and supports the long-term functionality of the complex. Although the walking trail portion of the project has not yet begun, we are actively working on the specifications for the bid documents. We anticipate releasing the bid and moving forward with construction soon. The paved walking trail will provide a safe space for exercise and leisure, promoting wellness for residents of all ages.

Organization Certifications

The Organization certifies that the funds have been expended in accordance with the plan provided to the agency providing the distribution and for a public purpose.
