Tonisha,

Attached you will find the 4th Quarter Expenditure Report of The RECing Crew, for the North Augusta Miracle League Field. With these funds, The RECing Crew along with the City of North Augusta Parks and Recreation has brought a Miracle League Field to Riverview Park in North Augusta. The North Augusta Miracle League Field is a universally accessible soft-surface baseball diamond created especially for athletes with disabilities. The field allows players to enjoy themselves without barriers or obstacles while accommodating wheelchairs and other assistive devices. This field is a multi-purpose facility for many therapeutic sports and activities. It is the first Miracle League Field in the United States with 2 baseball fields and a soccer field. We have partnered with other agencies within our area, who that provide services to children and adults with disabilities, by offering the field for their use for special programs, outdoor activities, classroom programs and much more.

I have also included some pictures from this springs baseball season for put North August Miracle League Team.

Thank you,

Pamela J. Stickler

President & Founder, The RECing Crew
