## Please explain how these funds will be used to provide a public benefit:

Our purpose and hope is to preserve a green space on Durbin Creek in a rapidly developing area of lower Greenville County. We want to create a safe place to walk or jog, and observe nature. We hope to have signs identifying wildlife and plant life. We have hope to eventually have observation decks over the creek and seating built around the giant trees in our pasture area. We will have a bridge over Durbin Creek that connects our series of trails on both sides of the creek. Last but not least, we will build an outdoor classroom that will enable schools to send two classes at a time, one utilizing our outdoor classroom to learn about hydroelectric power while the other class either hikes or enjoys our picnic shelter and then trades places. We feel the development of this park will take at least two years.
